LIVE ORG CHART · POWERED BY İKSİR

HieraChart

Organization Management Platform

- Sync the chart from the source and keep it current.
- Ask İksir, and the answer opens on the chart.
- Model scenarios without touching the live structure.

KEY BUSINESS BENEFITS

ALWAYS CURRENT

Single source of truth: Syncs from SAP HCM, SuccessFactors, Excel, or JSON, so "Is this chart up to date?" is no longer a question.

ASK İKSIR

Answers without filters: Vacancies, span of control, and reporting lines in a single question; the answer comes back in seconds and opens on the chart.

RISK-FREE SCENARIOS

Draft versions: Reorganizations are built in a draft; İksir suggests the change, and it's written to the draft only after you approve it.

STATIC CHART VS. HIERACHART

Topic	Today	HieraChart
Accuracy	Redrawn by hand after every change	**Syncs from the source; changes show up right away**
Questions	Filters set up, numbers added by hand	**Ask İksir; the answer opens on the chart**
Reorganization	Scenarios scattered across separate files	**Built in a draft; the live structure isn't affected**
History	Old files have to be tracked down	**The date picker shows any past period**
Presentations	The chart is copied into slides by hand	**Output in seven formats, including PowerPoint and Visio**

WHAT HIERACHART DOES FOR YOU

01 Single Source
Drawn from SAP, SuccessFactors, and HRIS data.

02 No Manual Updates
Changes reach the chart with the next sync.

03 Headcount at a Glance
Fill rate and vacancies in every box.

04 Presentation-Ready
Editable PowerPoint, PDF, PNG, and Visio.

05 See the Past
Pick a date to see that day's structure.

06 Try the Future
Build drafts; live data stays untouched.

07 Controlled Sharing
Everyone sees only what they're allowed to.

08 AI Assistant
Type your question, and get the answer.

Let's bring your org chart to life.

A short demo: We'll build the chart with your own data and ask İksir a few questions.
